

附录1 西双版纳地区垂叶榕榕小蜂的种类及其生物学特性

Appendix 1 List of fig wasps and their morphological characteristics of *Ficus benjamina* in Xishuangbanna

科/亚科 Family/sub-family	物种 Species	识别特征 Identification notes
Agaoninae/Agaoninae	<i>Eupristina koningsbergi</i>	雌蜂体黑, 产卵器较体长更短; 雄蜂无翅 Female, body black, ovipositor length shorter than body length; male, no wings
Pteromalidae/ Epichrysomallina	<i>Sycobia</i> sp. 1	雌蜂体棕色; 雄蜂头部纵脊隆突 Female, body brown; male, with longitudinal carina on head
Pteromalidae/ Epichrysomallina	<i>Sycobia</i> sp. 2	雌蜂体黄色, 腹部带条纹; 雄蜂有翅 Female, body yellow, stripes of the gaster; male, with wings
Pteromalidae/ Epichrysomallina	<i>Sycobia</i> sp. 3	雌蜂深灰色, 头部黄色; 雄蜂有翅 Female, body dark grey and head yellow; male, with wings
Pteromalidae/ Epichrysomallina	<i>Acophila</i> sp. 1	雌蜂体呈黑色, 产卵器较体长更短; 雄蜂触角黄色 Female, body black, ovipositor length shorter than body length; male, antenna yellow
Pteromalidae/ Sycoryctinae	<i>Philotrypesis tridentate</i>	雌蜂黄色, 体型较大, 产卵器短; 雄蜂无翅 Female, body yellow, stout and robust, ovipositor length shorter than body length; male, no wings
Pteromalidae/ Sycoryctinae	<i>Philotrypesis</i> sp. 1	雌蜂体黑, 产卵器为体长2倍多 Female, body black, ovipositor length more than 2 times of body length
Pteromalidae/ Sycoryctinae	<i>Philotrypesis</i> sp. 2	雌蜂体黄色, 产卵鞘前端膨大处与体长等长 Female, body yellow, the length of anteriorly bulging of ovipositor sheath equal to body length
Pteromalidae/ Sycoryctinae	<i>Philotrypesis</i> sp. 3	雌蜂黑色; 雄蜂略带黑色 Female, body black; male, body blackish
Pteromalidae/ Sycoryctinae	<i>Sycoscapter</i> sp. 1	雌蜂体黑绿色, 产卵器较体长更长; 雄蜂无翅 Female, body black green, ovipositor length longer than body length; male, no wings
Pteromalidae/ Otitesellinae	<i>Walkerella benjamini</i>	雌蜂体呈铜绿色, 产卵器短; 雄蜂无翅 Female, body metallic green, ovipositor length shorter than body length; male, no wings
Pteromalidae/ Otitesellinae	<i>Walkerella</i> sp. 1	雌蜂体黑带铜蓝色, 产卵器向下; 雄蜂无翅 Female, body black and metallic blue, ovipositor posture prolapse; male, no wings
Pteromalidae/ Otitesellinae	<i>Walkerella</i> sp. 2	雌蜂体淡黑色, 产卵器较体长更短; 雄蜂无翅 Female, body blackish, ovipositor length shorter than body length; male, no wings
Eurytomidae	<i>Sycophila</i> sp. 1	雌蜂体黄色, 带黑色翅斑; 雄蜂有翅 Female, body yellow, black spots on the wings; male, with wings
Ormyridae	<i>Ormyrus</i> sp. 1	雌蜂体铜绿色, 产卵器较体长更短; 雄蜂有翅 Female, body metallic green, ovipositor length shorter than body length; male, with wings
