

● 自然对照 Ambient control (CK) ● 干旱三年 Drought for 3 years (D3) ● 干旱十年 Drought for 10 years (D10)

附录3 极端干旱对不同丰度真菌群落 α 多样性的影响。不同字母表示多样性指数在不同干旱处理间的差异显著($P < 0.05$) (nCK = 11, nD3 = 12, nD10 = 11)。

Appendix 3 Effects of extreme drought on the α -diversity of whole, abundant and rare fungal communities. Different letters indicate significant differences in diversity indexes among different drought treatments ($P < 0.05$) (nCK = 11, nD3 = 12, nD10 = 11).
