

附录6 STRUCTURE分析结果最佳K值的判定。左侧使用Delta K (ΔK)方法推断最佳K值, 红色圆点表示最佳K值为2。右侧是数据在不同估计值K下的平均对数似然。

Appendix 6 The analysis of optimal K value for STRUCTURE results. The left is inference of the optimal K value using the Delta K (ΔK) method; the red dot indicates the best K value, which is two. The right is mean log likelihood value of different K
